MIAMI ARTCC
VIRTUAL MIAMI AIR ROUTE TRAFFIC CONTROL CENTER

Miami Virtual Air Route Traffic Control Center

Approved Positions and Sectors

This file lists the control positions approved for use by controllers, including the appropriate frequency and callsign which should be used to sign on to the VATSIM network. Where no relief position is explicitly defined, you may use a numeral 1 in the middle of the callsign to indicate a relief position. For example, MIA_V1_APP may be used relieve MIA_V_APP.
